

MEGA LUBE

ROCK DRILL OIL

Description: **ROCK DRILL OIL is a special high quality paraffinic based percussion air tool lubricant .This product was formulated with special EP and ANTI- RUST additives to protect equipment operating in very harsh environments.**

Application: **ROCK DRILL OIL** can be used in all types of rock drills where lube oil is recommended.

This lubricant is specially developed to provide an effective lubricant film, which reduces wear of heavily loaded parts and prevents seizure.

Characteristics:

ISO GRADE	150
Viscosity @ 40°C	150 cSt
Viscosity @ 100°C	15 cSt
Viscosity index	95
Flash point °C	225°C
Timken ok load , kg	27
Rust prevention , rating	Pass
