

MEGA LUBE

FIFTH WHEEL GREASE (TACKY)

Characteristics: **FIFTH WHEEL GREASE** is a tacky extreme pressure grease giving excellent water repelling properties and in combination with a high viscosity base oil fortified with molybdenum, enhances lubricity and load carrying capacity.

Application: **FIFTH WHEEL GREASE** has been specially developed for applications where the combination of heavy loads, slow speeds , water washout and SLIDING surfaces exclude the use of conventional products. These conditions are found with heavy truck fifth wheels.

Data:

Thickening agent	Lithium / Calcium/ Polymer
Colour	Grey/black
NLGI Classification	2
Worked penetration @ 25°C	280
Drop point °C	195
Timken OK Load kg.	>25
Oil viscosity @ 40°C cSt	860
Water Washout	0.2%
